Project 3: Present Your Work

Agreement

This Project is meant to be an assessment of your ability to present the work from Project 1 and/or 2 in a poster-presentation format.

You may choose to work alone or work together with another student if you worked as a team on Project 2. If you work with someone else, you will both receive the same grade for the project.

You may use any resource, either online or physical, to complete the work. This includes:

- Any help forum or website (e.g. StackOverflow) questions that already exist.

- Any notes, code, slides, papers, or previous feedback from the instructor.

- Any books, online or physical.

- Scholarly works such as papers.

It DOES NOT include:

- Help from generative artificial intelligence such as ChatGPT.

- Help from homework websites such as Course Hero or Chegg.

If you use work outside normal course resources (textbooks, lecture notes, slides, code, or instructor feedback), your group is expected to cite the work by providing a **full citation** to the source near the place that the code or idea was used.

Instructions

Step 1: You will work with your visualizations from Project 1 or 2. Add a line of code that saves your visualization(s) in a results/ folder as a PDF. Do this by **Dec. 1st, 2023**.

Step 2: Complete SK 4.1's writeup to give you an idea of how to structure your presentation. Do this by **Dec. 8th, 2023 at 11:59 pm for Sections 1 and 3** and **Dec. 12th at 11:59 pm for Section 2**.

Step 3: Create a poster with the same information and structure as SK 4.1. (There is no need for these to be different, they are simply the same information presented in a different format.) Your poster should be no larger than 36 inches by 48 inches. It should have a title, the names of authors and their affiliations, Background, Analysis, Results and Discussion, Conclusions, Acknowledgements, and References sections. Complete a full draft of the poster by **Dec. 11th, 2023 for Sections 1 and 3** or **Dec. 5th, 2023 for Section 2** and submit to your instructor for feedback (optional).

Step 4: Turn in the final version of your poster to Canvas under Project 3 for printing the day before the final exam for your section:

- Section 1: **Wed. Dec. 13th, 2023 by 4 pm**
- Section 2: **Thurs. Dec. 7th, 2023 by 4 pm**
- Section 3: **Tues. Dec. 12th, 2023 by 4 pm**

Step 5: Attend the exam and present your poster with a short (2–3 minute) oral presentation.
